C. YOUR INTERESTS *These details help us understand your interest in joining a Waterwatch group*

The Waterwatch Program aims to educate and empower current and future generations to become actively involved in the sustainable use and management of catchments through monitoring and educational activities. Participation in this program is entirely voluntary and members will be provided with all necessary training required to undertake water quality monitoring within your catchment. All data obtained will be used by NSW Waterwatch to establish baseline data for local Catchment reporting on water quality and catchment conditions. Other opportunities include workshops, training, networking with other landholders and likeminded community members, help with addressing water quality issues, and advice / help regarding funding opportunities.

1. Conservation Agreements – (please click with mouse on relevant box)
